Project Design Phase

Problem – Solution Fit

Problem–Solution Fit Canvas

1. Customer Segments

Content creators, digital marketers, startups, small businesses, freelancers, educators and social media managers.

2. Jobs-to-be-Done / Problems

Need to generate engaging promotional video scripts quickly while maintaining quality and creativity.

3. Triggers

Frequent content posting, campaign deadlines and increasing demand for short-form videos.

4. Emotions (Before / After)

Before: Frustrated and unsure. After: Confident, productive and satisfied.

5. Available Solutions

Manual writing and generic AI chatbots exist but often require repeated editing and prompt refinement.

6. Customer Constraints

Limited time, budget and creative writing experience.

7. Behaviour

Users search online, take inspiration from competitors and use multiple AI tools before finalizing content.

8. Channels of Behaviour

Google Search, YouTube, Instagram, LinkedIn, AI platforms and marketing communities.

9. Problem Root Cause

Script writing combines creativity, marketing knowledge and audience understanding, making it difficult and time-consuming.

10. Our Solution

A web application using Groq API and LLaMA that generates a hook, complete script, scene suggestions and CTA from simple user inputs.
