

Brainstorming and Idea Prioritization

DATE	30 JUNE 2026
TEAM ID	KANAK DHINDHWAL , ISHA SAINI , BALJEET KAUR
PROJECT NAME	AI POWERED VIDEO SCRIPT GENERATOR
MAXIMUM MARKS	

STEP 1 - BRAIN STORM AND IDEA LISTING

Idea	Category	Brief Suggestion
AI-powered Video Script Generator	Content Creation / AI Writing Tool	Generates structured video scripts based on user input topics.
AI Study Planner	Education / Productivity	Helps students plan daily study schedules based on exams.
AI Resume Builder	Career Tools	Creates professional resumes using user details.
Idea	Category	Brief Suggestion
AI Chatbot for Student Queries	Education / Support System	Answers academic-related questions instantly.
AI Social Media Caption Generator	Content Creation	Generates catchy captions for Instagram and Facebook posts.
AI Health Diet Suggestion Tool	Health & Fitness	Suggests basic diet plans based on user goals.

STEP 2 –

After brainstorming different ideas, we compared them to decide which one we should actually work on. We did not select randomly; instead, we evaluated each idea based on two simple factors:

- **Feasibility** – How easy it is to build with our current skills and available tools
- **Importance** – How useful the idea is for real users in real-life situations

Each idea was given a score from **1 (low)** to **5 (high)**.

Idea Prioritization Table

IDEA	FEASIBILITY	IMPORTANCE	TOTAL SCORE
AI-POWERED VIDEO SCRIPT GENERATOR	5	5	10
AI RESUME BUILDER	5	4	9
AI CHATBOT FOR STUDENT QUERIES	4	5	9
AI SOCIAL MEDIA CAPTION GENERATOR	5	4	9
AI STUDY PLANNER	4	4	8
AI HEALTH DIET SUGGESTION TOOL	3	5	8
AI INTERVIEW PRACTICE TOOL	4	5	9
AI STARTUP IDEA GENERATOR	4	4	8

After comparing all the ideas, the **AI-powered Video Script Generator** clearly came out on top with the highest score. It is not only easy to build but also very useful for content creators who often struggle with generating ideas and writing scripts.

So, we decided to move forward with this idea for our project.
